TLD's MOTION FOR EXTENSION OF TIME

Telefónica Larga Distancia de Puerto Rico, Inc. ("TLD") hereby moves the Commission to extend the time for filing Comments and Reply Comments in response to the Notice of Proposed Rulemaking ("NPRM") in the above-captioned proceeding. TLD is authorized to represent that TRW Inc. ("TRW"), IDB Mobile Communications, Inc. ("IDB Mobile") and AmericaTel Corporation ("AmericaTel") join TLD in this request.

Currently, Comments are due on March 28, 1995, and Reply Comments are due on April 28, 1995. TLD, TRW, IDB Mobile and AmericaTel request a four week extension of time so that Comments would be due on April 25, 1995, and Reply Comments would be due on June 2, 1995.

The NPRM raises complex legal, economic and policy issues. The record compiled to date in response to AT&T's September 1993 Petition for Rulemaking is already stale. AT&T has already commissioned at least one economic study to support its position. The Commission has frequently commented that it would like to have strong economic arguments presented by as many participants as possible. Additional time is necessary to permit all of the interested parties to provide a complete and balanced presentation on all the issues.

In addition to this proceeding, some of the parties and their attorneys who plan to participate in this proceeding are also participating in other important international and a satellite matters, including the WARC NOI, CPM meetings and 2 GHz NPRM. The additional time will also allow these parties and their attorneys sufficient time to devote to each of these important matters.

AT&T's Petition for Rulemaking was filed 18 months ago. A four week extension that permits presentation of a complete and balanced record would not prejudice AT&T or any other party.

Dated: March 8, 1995

Respectfully submitted,
